Subject: A Partnership for Humanity: MUDJJ's Proposal for Security Partnership and a Comprehensive Haitian Institutional Reset

Your Excellencies,

The Mouvement Inoubliable Dessalines Jean-Jacques (MUDJJ) and the Nou Se Ayiti (NSA) coalition write to you today as a willing and necessary partner in the effort to restore security and sovereignty in Haiti.

We have heard the calls for a Haitian-led solution. We have noted the deployment of the Gang Suppression Force (GSF). We have listened carefully to Secretary-General Guterres' remarks at the 81st General Assembly, where he affirmed that "the greatest power is not the power to dominate. It is the power to build a future that works for everyone."

We agree. And we believe Haiti can be the foundational example of that vision.

Therefore, we are making a strategic and historic proposal to the United Nations.

L'union fait la force

I. WE WELCOME PARTNERSHIP ON SECURITY

We are not asking for international security support to leave. We are asking for it to stay and to succeed in partnership with the Haitian people.

The reality is clear: the Haitian National Police, while courageous, requires sustained logistical and operational support to restore order. The Gang Suppression Force (GSF), supported by the United Nations Support Office in Haiti (UNSOH), provides an essential backbone for stability. The GSF is currently deployed at approximately 1,083 of its authorized 5,500 personnel — far below the strength required to deliver on its mandate.

MUDJJ and NSA support a security partnership that provides safety and stability for the Haitian people. We recognize that without security, there can be no elections, no development, and no sustainable future.

II. WE URGENTLY PROPOSE A RADICAL RESET OF HAITIAN INSTITUTIONS

However, security without reform cannot be sustained. We are calling for a comprehensive reset of the Haitian state, aligned with the vision of the Secretary-General and the findings of independent experts.

1. Police Reform
The Haitian National Police must be vetted, professionalized, and made citizen-centered. The corruption that allows armed groups to operate with impunity must be rooted out, in line with BINUH's mandate on police accountability.

2. Judicial Reform

The Haitian judiciary requires urgent strengthening. According to the ULCC 2024 Annual Report, of 166 corruption reports transmitted to the justice system, only 4 resulted in judgments. This demonstrates a systemic accountability gap. We propose international technical support for a total overhaul, including specialized judicial poles focused on financial crimes, gang-related violence, and mass atrocities, with formal civil society oversight.

3. Governance and Transition Reform

The current transitional framework has been unable to deliver the popular trust and legitimacy required for credible elections, as noted in CARICOM consultations. The Transitional Presidential Council's mandate expired on February 7, 2026, without a clear succession plan. We propose a clean, technocratic transition to prepare the country for genuine democratic elections, working in consultation with all legitimate Haitian stakeholders.

III. THE EVIDENCE: THE CURRENT FRAMEWORK IS FAILING

We do not make these claims in the abstract. The evidence is documented.

The Kenscoff Massacre

According to the RNDDH report published September 2026 on the July–August 2026 massacres in Kenscoff, at least 164 people were killed, more than 70 kidnapped, and dozens remain missing. Security in the area had been reduced by 60% before the attack. We present this data not as an accusation, but as evidence of the urgent need for enhanced coordination and oversight. According to the RNDDH report, the UN-backed Gang Suppression Force "remains barely perceptible on the ground, and its contribution to security operations remains difficult to identify."

This is not a criticism of the mission's intent. It is a call to reform its execution.

The Political Vacuum

The Transitional Presidential Council's mandate expired on February 7, 2026. In January 2026, five of seven voting members voted to dismiss the Prime Minister, but the decision was never executed. This is not governance; it is paralysis.

IV. OUR PROPOSAL: A PARTNERSHIP FOR HUMANITY

We are offering the UN a partnership that strengthens Haiti and reinforces the credibility of multilateral cooperation.

A Credible Path for the UN

By partnering with a credible Haitian civil society movement to rebuild institutions from the ground up, the UN can demonstrate what a successful, principled, Haitian-led mission looks like. This is an opportunity to showcase cooperative multilateralism — and to reset the global narrative on international intervention.

A Clean Transition, Not a Manufactured Candidate

We reject the practice of importing diaspora figures with no constitutional standing and paid media profiles to create the illusion of consensus. Haiti's next leader must meet all constitutional requirements, be untainted by the corrupt network, and command the genuine trust of the Haitian people. We call for a clean, technocratic transition led by a Prime Minister who satisfies these conditions — and we insist that the selection process be Haitian-led and transparent.

L'union fait la force

A Foundation for the Future
Haiti is a founding member of the United Nations. As the first nation to abolish slavery, we have historically been a mother of human rights. We can be the example of a nation that, with the right partnership, rebuilt itself on a foundation of unity, transparency, and dignity within 24 months.

V. OUR REQUEST

We formally request a seat at the negotiation table with the UN Security Council, BINUH, and CARICOM to discuss:

1. Modalities for supporting UN security operations while simultaneously implementing a Haitian-led institutional reset.
2. A transparent, Haitian-led process for selecting a constitutional, uncorrupted transitional Prime Minister — free from foreign-manufactured candidacies.
3. Establishment of a formal civil society oversight mechanism for security and judicial reforms.

Your Excellencies, as the Secretary-General said, "Cracks have become canyons." But he also said the greatest power is the power to build a future that works for everyone.

Let us build that future together. Let us save lives, eliminate corruption, and create a renewed foundation for humanity in Haiti. Everyone benefits when we partner to defend human dignity.
